Practical info

ELIGIBILITY FOR PENSION INSURANCE

Entry threshold

Persons subject to AVS exercising a principal occupation earning an annual AVS salary higher than CHF 22'680.– are insured for the MINIMA, MEDIA and SUPRA plans, and with a salary equal to or higher than CHF 3'780.– for the MAXIMA and OPTIMA plans. This rule also applies to cross-border workers.

Nature of the contractual relationship with the employer

Persons with a single employment contract with a fixed term equal or less than three months or who have several employment contracts of limited duration one after the other with interruptions of more than three months between working relationships are not accepted as insured. If the initial employment contract is extended immediately after its expiration beyond three months, eligibility for the CIEPP insurance takes effect at the time the extension is agreed.

Persons with a secondary activity with our affiliate and who are already liable to compulsory insurance for a principal professional activity in another company are not accepted as insured with the CIEPP, unless the employer requests that his employee be eligible for the secondary activity he carries out for him.

CONTRIBUTIONS

Billing

If the effective date of affiliation is later than the two working days following the beginning of the month, the contribution is due from the 1st of the following month. Otherwise it is due for the whole of the month from the beginning of the month. For example:

- start of affiliation, Tuesday 5 July (3rd working day of the month) => billing from 1 August;
- start of affiliation, Monday 4 July (2nd working day of the month) => billing from 1 July.

If the effective date of ending of affiliation is later than the two working days following the beginning of the month, the contribution is due until the end of the month. Otherwise it is not due. For example:

- end of affiliation, Tuesday 5 July (3rd working day of the month) => billing until 31 July;
- end of affiliation, Monday 4 July (2nd working day of the month) => billing until 30 June.

It is important to note that we adjust the billing of contributions during the course of the year in function of the changes in personnel that you indicate to us. It is therefore indispensable that you communicate to us at all times the entry and exit notification of the insured. We do not publish an end-of-year amended statement. Changes relating to salary increases or decreases do not lead to a billing adjustment if the change in salary is less than 10%.

ANNUAL DETERMINING SALARY TAKEN INTO ACCOUNT BY THE CIEPP

Regular fixed salary

The annual determining salary taken into account by the CIEPP is equal to the last known AVS annual determining salary, including the salary changes already agreed for the current year. Only salary changes higher than 10% are taken into consideration over the course of the year or for the following year.

Regular fixed salary of newly insured persons

For employees who have worked for less than a year, for example due to the start of the working relationship in the course of the year, it is necessary to indicate the salary corresponding to a year of work.

Salary with a variable part of over 20%

For employees with a variable part of over 20%, please contact our administration department.

Bonuses and share in profits

These bonuses are only insured on the following conditions:

- mention of individual performance bonuses in the employment contract;
- regular payment of these bonuses;
- the taking into consideration of the total amount of these bonuses must result in an adjustment of the AVS salary of more than 10%.

Salary elements of an occasional nature

Overtime hours, tips, severance, redundancy or long-service pay, allowances for training, marriage and births are not taken into consideration.

LEGAL OBLIGATION TO INFORM

Incapacity to work, disability and rehabilitation measures on the part of your employees must be notified to us without delay. This notification is a legal obligation which is incumbent on you, even if the employees work part-time or have a lucrative activity with another employer, as this information may have a significant impact on the contributions billed.
